2 What you need to know (study modules)

3 Skills checklist

4 Supervised practice log

5 Knowledge check

6 Practical exam

7 Sign-off

Name: _____ Started: _____

Rev 1.0 • October 2026

1 About this certification

What it lets you do

- Run the Tech Bench front desk on your own.
- Check student devices in and create repair tickets in the portal and Incident IQ.
- Assign and un-assign Chromebooks (loaners and permanent devices) in Incident IQ.
- Check calculators, chargers and other accessories in and out in Follett Destiny.
- Hand repaired devices back and close tickets.

Before you start. None. Tier 1 is helpful (for quick fixes at the desk) but not required.

How to earn it

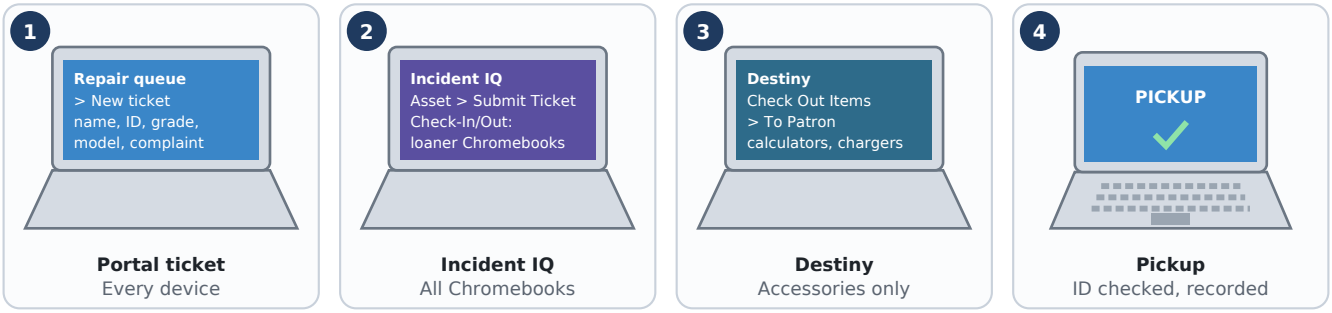

Step	What you do
Study	Modules 1–5 below, and the district's own Destiny and Incident IQ instructions if your district has them.
Shadow	Shadow an RA for 2 front-desk shifts.
Practise	Handle 10 supervised check-ins and 5 supervised pickups, including at least 2 Chromebook loaners in Incident IQ and 2 Destiny accessory checkouts.
Knowledge check	Score 80% or better (12 of 15).
Practical exam	Run the front desk for a set of role-play customers with no automatic-fail items.
Sign-off	Lead tech or manager signs and awards the certification in the portal.

Certification is earned, not given for time served. Every requirement below must be signed off by a lead tech or manager.

A certification can be paused by a manager after a safety violation or repeated comebacks (repairs that come back with the same fault).

When every box is signed, the manager awards the certification on the portal's Certifications page. That's what unlocks the matching tickets and guides.

2 What you need to know

Module 1 — The front desk

- **Greet and listen.** Ask what's wrong in the student's own words and write it down that way. Ask when it started, and whether it was dropped or got wet.
- **Quick checks at the desk** (no tools): is it charged? Try a known-good charger. Try a hard reset if you're Tier 1. Many visits end here.
- **Privacy.** Student names, ID numbers and grades are private. Don't read them aloud, don't leave screens open, don't share the status link with anyone but the student or family.
- **Physical damage.** Photograph all four sides at check-in, so damage is recorded before the bench touches it.
- **Fees.** The repair tier sets the fee on the district schedule (Tier 1 Basic, Tier 2, Tier 3 Advanced, Tier 4 Device Replacement). The portal shows the current amounts. Don't promise a tier: the bench confirms it after diagnosis. Fines and charges are handled by the office, not the desk.

Module 2 — The Workforce portal

- **Clock in** at the start of your shift from the Dashboard, and clock out when you leave. Forgot? Use Request missed hours; a manager approves it.
- **New ticket:** Tech Bench → Repair queue → New ticket. Required: student first and last name, student ID, grade, device model and chief complaint. Add the serial / asset ID. Leave the tier on "Decide later" unless you're sure. Add a pickup email if the student wants alerts.
- **Statuses** move from Awaiting Assignment through diagnosis and repair to *Repaired - Ready for Pickup*, then *Returned to Student* (or *Unrepairable*).
- **Finding a ticket:** search by student name, ID, model, serial or complaint. Filters cover status, assignee, tier, school and dates.
- **Notes and photos:** add a note for anything the bench should know. Upload the check-in photos to the ticket.
- **Status link:** on the ticket, make a status link so the family can check progress without signing in.
- **Pickup:** only a *Ready for Pickup* ticket can be handed over. Enter who picked it up and their relationship to the student, tick that you checked ID, then confirm. The ticket closes as Returned to Student.
- **Learn and Certifications:** guides for every device are under Learn. Your certifications are on the Certifications page.

Module 3 — Incident IQ: Chromebooks, tickets and assignments

- Incident IQ (iiQ) is the district's system for **every Chromebook**: who it's assigned to (permanent device or loaner) and its repair tickets. Chromebooks are never checked out in Destiny.
- **Find the asset:** search by asset tag or serial number. Check that the owner shown matches the student in front of you.
- **Submit a ticket on the asset:** open the asset, click Submit Ticket, choose the closest issue ("Issue Not Listed" only as a last resort), describe the problem, add photos, and submit. Starting from the asset links the ticket to the device's history.
- **Assign a Chromebook (check out):** Assets → Check-In/Out (or the asset's page). Look up the asset, search for and select the student under Check Out To, then click Check Asset Out. Confirm the student now shows as the owner.
- **Un-assign (check in):** look up the asset on the Check-In/Out page and click Check Asset In.
- **Loaners:** while a student's own Chromebook is in repair, assign them a loaner in iiQ (follow your district's rule on whether their own device stays assigned too). When the repair is done, check the loaner in and make sure the repaired device is assigned back to them.
- **Comments:** open the ticket to add comments; updates appear under Ticket Activity. Add the portal ticket number in a comment so the two can be matched.
- Lost or stolen Chromebooks go to the lead tech. Don't change the assignment yourself.

Module 4 — Follett Destiny: calculators, chargers and accessories

- Destiny Resource Manager is used only for **accessories**: calculators, chargers and similar items. Never for Chromebooks.
- **Check out:** Circulation → Check Out Items → To Patron. Scan or type the student's barcode/ID and pick the student, then scan the item's barcode in the Find field.
- **Check in:** Circulation → Check In Items. Scan the item's barcode in the Find Item field. It appears under Most Recently Checked In.
- **Blocked checkout:** if Destiny shows a block (fines, overdue items), stop and get the lead tech or librarian. Don't override unless you've been given that permission and told to.
- **Look up an item:** Circulation → Item Status, find the barcode, open the item. Lost and stolen are marked there by staff, not by the desk.
- Damaged or missing chargers and calculators: tell the lead tech. Fines and charges are handled by the office.

Module 5 — Putting it together: check-in and pickup

- **Check-in:** greet → quick desk checks → photos → portal ticket → iiQ ticket on the asset → loaner Chromebook assigned in iiQ (if needed) → label the device with the ticket number → put it on the intake shelf. A loaner charger or calculator goes out in Destiny.
- **Pickup:** find the ticket (Ready for Pickup) → check ID → hand over → record the pickup in the portal → check the loaner Chromebook in (iiQ) and confirm their own device is assigned to them → update the iiQ ticket → check in any accessories in Destiny → loaner back on the charging cart.
- If anything doesn't match (wrong student on the asset in iiQ, a block in Destiny, a missing device), stop and get the lead tech. Don't guess.

3 Skills checklist

An evaluator initials each skill after watching you do it correctly, on your own, at least once. Practice repairs count.

#	Skill	Date	Evaluator
1	Greets, listens and records the complaint in the student's words		
2	Does the desk quick checks (charger, hard reset if Tier 1)		
3	Photographs a device at check-in and attaches the photos		
4	Creates a complete portal ticket		
5	Finds a ticket by name, ID or serial and reads its status		
6	Makes and shares a status link correctly		
7	Records a pickup with ID check		
8	Assigns and un-assigns a loaner Chromebook in Incident IQ		
9	Checks a charger or calculator out and in in Destiny		
10	Finds an asset in Incident IQ and submits a ticket on it		
11	Adds a comment linking the iiQ and portal tickets		
12	Protects student information at the desk		

4 Supervised practice log

Log every supervised practice repair (or front-desk transaction). The supervisor signs each line.

#	Date	Device / asset tag	Repair or task	Ticket #	Supervisor
1					
2					
3					
4					
5					
6					
7					
8					
9					
10					

5 Knowledge check

15 questions. Circle one answer for each. Closed book. The evaluator marks it with the key. Pass mark is on page 1.

1. How should you write the chief complaint?

A In your own technical words
B Just "broken"
C In the student's own words
D Leave it blank

2. Which portal ticket fields are required?

A Student first/last name, ID, grade, model, complaint
B Only the model
C Just the serial
D Email address

3. Which status must a ticket be in before you can hand the device back?

A Awaiting Repair
B Quality Assurance Inspection
C Any
D Repaired - Ready for Pickup

4. What do you record at pickup?

A Nothing
B Who picked it up, their relationship, and that you checked ID
C The time only
D The fee

5. Where do you assign a loaner Chromebook to a student?

A Follett Destiny
B Incident IQ
C The portal's Learn tab
D Google Admin

6. A student needs a loaner calculator. Where do you check it out?

A Incident IQ
B The repair queue
C On paper
D Destiny: Circulation → Check Out Items → To Patron

7. Destiny shows a block when you check out a charger. What do you do?

A Stop and get the lead tech or librarian
B Override it
C Try another student's account
D Ignore it

8. Why submit an Incident IQ ticket from the asset's page?

A It's faster to type
B It skips the description
C It links the ticket to the device's history
D It's required to print

9. When should you choose "Issue Not Listed" in iiQ?

A Always
B Never
C For screens
D Only when no listed issue is close

10. A student asks you to promise their repair is Tier 1. What do you say?

A Promise it
B The bench confirms the tier after diagnosis
C Charge Tier 4 to be safe
D Say it's free

11. Who can you share a ticket's status link with?

A Anyone who asks
B Post it publicly
C The student or their family
D Other students

12. A device comes in wet. What do you do at the desk?

A Don't power it on; get it to a Tier 3 tech right away
B Turn it on to check
C Put it in rice
D Wait until tomorrow

13. Why photograph all four sides at check-in?

A To record existing damage before the bench touches it
B For fun
C For the yearbook
D It's not needed

14. You forgot to clock in. What do you do?

A Nothing
B Ask a friend to clock you in
C Use Request missed hours so a manager can approve it
D Edit the timecard yourself

15. A student reports their Chromebook was stolen. What do you do?

A Un-assign it in iiQ
B Give them a loaner with no record
C Delete it in iiQ
D Get the lead tech; don't change the assignment yourself

Score	Pass mark	Result	Evaluator / date
____ / 15	80% or better (12 of 15)	Pass / Retake	

6 Practical exam

An evaluator watches you do each task. Time allowed: about 40 minutes. You may use the repair guides and your notes, but you work on your own.

Task	What you'll do	To pass	P / F
Check-in	Role-play customer with a device that won't charge.	Greets, quick checks, photos, complete portal ticket, iiQ ticket if required.	
Loaner	Assign a loaner Chromebook in Incident IQ, and check out a charger in Destiny.	Chromebook in iiQ (right asset, right student); charger in Destiny (right patron, right barcode); any block handled properly.	
Lookup	Find a ticket by student ID and tell the customer its status.	Finds it quickly; explains the status in plain words; no private info shared.	
Pickup	Hand back a Ready for Pickup device.	ID checked, pickup recorded, loaner checked in and own device assigned in iiQ, accessories checked in in Destiny.	
Problem customer	Role-play: the asset in iiQ is assigned to a different student.	Stops and escalates; doesn't guess or change the record.	

Automatic fail. Any one of these ends the exam: Handing a device to someone without checking ID; Sharing a student's information with another student; Checking a Chromebook out in Destiny instead of Incident IQ; Overriding a Destiny block without permission; Powering on a wet device; Changing timecards or asset records without permission. You can retake it after a week of extra practice.
